REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of New Boston:

I hereby submit my first annual report as Superintendent of Schools of New Boston.

The current school year opened with an enrollment of 125 pupils, slightly less than the preceding year. The decrease resulted from a smaller freshman class than the year before. The enrollment table at the end of this report shows the trend over the past five years.

There were numerous changes in the teaching staff during the summer months. C. Edgar Stevens, a graduate of the University of New Hampshire, with several years of successful teaching experience in Vermont, replaced Ernest Nedeau as headmaster and instructor in Vocational Agriculture. After 15 years of teaching at New Boston, Mr. Nedeau has gone into farming in Meredith.

E. Gale Huntington of Martha's Vineyard was engaged to teach the social studies, while Joan Silverson of Wrentham, Mass. took over the English, Latin, and French. Mrs. Margaret Conway of Manchester, who began her work in Home Economics at New Boston last spring, returned for another year.

In the Primary Room Mrs. Helen Gutterson, who previously taught in Weare, replaced Natalie Hopkins, and Mrs. Marion R. Pounder of Derry took over the Intermediate Grades.

During the current year we have found it necessary to replace several sets of text books in the High School. With the emphasis during the last few years on the work of the Shop, the normal replacement of books was neglected. Reference books in Agriculture, English, History, and Sociology have been purchased in order to bring such mate-

rials up to date. The books of the elementary grades were in good shape, and but few additional materials were necessary. The teachers have, however, been handicapped by our inability to secure delivery of reading workbooks which are an essential part of our reading program. With book publishers being subjected to a quota of paper, orders placed early in September have not been received at this writing. The cooperation of the teachers, their adjustments to the situation, have made successful teaching possible in spite of lack of materials.

I feel that the schools of New Boston are very fortunate in their teaching staff. With teachers as scarce as they are in these war-years, to have a group of teachers such as ours, with considerable experience in some cases, and with the entire group showing a fine professional spirit in their work, is indeed a fortunate situation. The state as a whole is facing a crisis in the number of teachers available for service. With our teacher-training institutions graduating less than half as many teachers as in normal years, there will be but few teachers available to take the places of those who are to retire or those who can no longer serve as teachers due to conditions beyond their control. During the past several years more and more ex-teachers have been "drafted" from their domestic duties to assist our schools in this emergency, and the citizens of every town should be extremely grateful for their services in these days of need.

But, in spite of the services of these hundreds of former teachers, the probability this fall is that many schools throughout the state will face the opening of school without teaching personnel. Undoubtedly many towns will have to close certain schools, and transport the pupils to other schools in the town or to neighboring towns. With teachers' salaries lagging behind the salary scales of other occupations, together with an extremely small supply of new teachers entering the field, radical adjustments will undoubtedly have to be made in many towns in New Hampshire. It is indeed tragic that in these days when education of our children is

becoming increasingly important in the meeting of a more complexed economic and social world, that the work of our schools is forced to suffer for want of properly trained teachers. Every citizen of the state should exert all influence possible to promote those measures which will insure the continued functioning of our schools to produce well-equipped citizens for the years to come.

The success of our schools is dependent upon the combined efforts of teachers, parents, and the School Board. For the cooperations of each of these groups, I am deeply grateful.

Respectfully submitted,

LEWIS F. FOOTE,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

The school nurse submits this report for the school year September, 1943 through December, 1944:

About 135 pupils were examined by the school physician, Dr. Fraser, and the parents notified of any weakness or defect found.

The following report shows the number of pupils affected at the time of the regular Fall examination in September:

Defective vision, 22—number of defects corrected, 20.

Defective teeth, 122—number of defects corrected, 65.

Diseased tonsils, 14—number of defects corrected, 7.

There were three orthopedic cases. One had a check-up at the Shrine Hospital during the summer, one attended the orthopedic clinics at the Elliot Hospital regularly, and one boy was under treatment at the County Hospital.

One boy had his fingers badly injured.

One girl suffered a fractured shoulder.

One girl had an appendectomy.

Since the first of the year there have been 10 cases of chicken pox, and 23 cases of mumps. While a year ago there were 26 cases of mumps and 2 cases of scarlet fever.

The Patch test was given to all senior and freshmen in the high school in May, 1944. Two pupils showed a positive reaction. One girl was taken to Manchester to Dr. Kerr's clinic for a chest X-ray, and she was found negative to pulmonary tuberculosis.

Many of our children have not received adequate dental care this past year due to the shortage of dentists. We have been unable to have our usual dental clinics which have meant so much to the pupils who have found it difficult to get into the city to their own family dentist on account of the gas shortage.

When the first two million selectees for the army were examined, dental defects rejected more men than any other

defect. To improve this condition, the dental profession is giving special attention for the duration, to high school seniors. The purpose is to attempt to improve the dental condition of our high school boys and girls in their senior year of school.

I have given a "Victory Corp. Dental Card" to each senior, and the dentists have agreed to recognize high school seniors on a priority basis and give such pupils a free dental examination. A record will be kept in the high school, of those receiving cards, when they are returned signed by the dentist, and what corrections have been made. The audiometer test is to be given this Spring. This test is given to determine whether a pupil can hear clearly or not. If one is found to have defective hearing medical advice is recommended.

41 home visits have been made during this period.

EDITH G. WALKER,
School Nurse.
